Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 April 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 04/20/04 has been entered.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 9-14, 16-18, and 20-23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Lee et al. (5774337). With respect to claims 9-14, 16-18, and 20-23, it is clear to see from figures 1-7, Lee et al. teaches an electronic device chassis (30) comprising a bracket (32) for mounting two or more storage devices (20, 22, 24, 25) being oriented in a first plane; a hinge (44) for rotatably connection the bracket (32) to the chassis (30) wherein the hinge (44) is configured to rotate the bracket (32) in a closed and open position about a hinging axis in a first plane in a direction perpendicular to the first plane; means for securing the bracket (32) in a closed position; and a locking structure for locking the bracket in a first position. Also, Lee et al. teaches an electronic system (10) comprising; an electronic device chassis (30); a bracket (32) for mounting two or more storage devices (20, 22, 24, 25) being oriented in a first plane; a hinge (44) being oriented parallel to the first plane for rotatably connecting the bracket (32) to the chassis (30); wherein the mounted devices (20, 22, 24, 25) comprises a first device having a

Art Unit: 2835

front orientated in the first surface and a back surface parallel to the front surface, the back surface having a connector disposed thereon as claimed (see for example figures 1-7). With respect to the hinge structure as claimed, the apparatus of Lee et al. inherently teaches such hinge structure by incorporating US Pat. No. 5,561,893 "Method of Forming a Hinge Structure" (see for example column 4 line 14-20 and US Pat. 5,561,893 issued to the same inventor as the prior art used).

Response to Arguments

3. Applicant's arguments, see page 5, filed 07/11/03, with respect applicant's remarks concerning the 102 rejection of claims 9-14, 16-18, and 20-23, applicant is directed to figures 1 and 5-7, which shows the mounted devices (20, 22, 24, 25) comprising a first device having a front surface oriented in a first plane and a back surface parallel to the front surface as claimed.

Conclusion

4. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 2835

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lisa Lea-Edmonds whose telephone number is 571-272-2043. The examiner can normally be reached on Monday - Friday.
